Product Overview

TDA2L "Copy and Print" Card Controller

- ❑ Vend copies and prints, or just copies, or just prints, using a magnetic card
 - ❑ Reader supports up to six prices by copy type, for selected copier models
 - ❑ Reader can be programmed for minimum and maximum print vend prices
 - ❑ Reader has built-in maximum allowed card value for security purposes
-
- ❑ Reader is Ethernet compliant
 - ❑ Connection allows copier control programming and data retrieval from any PC
 - ❑ Copy Activity Report shows copy clicks for all supported copy types, specifically B/W vs. Color, for up to three paper sizes
 - ❑ Copy Activity Report shows net deposits for copying, printing and bypass activity
 - ❑ All copier control settings are made via PC
 - ❑ Bypass keyswitch can be used for free copying
 - ❑ LED indicates when copier is enabled, or when there is insufficient credit to start copying
 - ❑ Card is automatically ejected if card value dips below cost per copy
 - ❑ Card is automatically ejected at the end of a successful print vend transaction
 - ❑ Cards can be encoded for value on the controller using an Administrator card
 - ❑ Use of card controllers can be assigned to specific groups of users
 - ❑ One year warranty for manufacturing defects
