### Copicode Alpha Copier/Printer Controller

#### Product Overview

The [Copicode Alpha Copier/Printer Controller](#) is a fully alphanumeric keypad controller designed to vend images against accounting quotas associated with users, departments and projects.

The Alpha comes standard with approximately 1500 codes, but can be easily expanded in multiples of 1500 codes, up to a maximum of over 6000 codes.

The device supports two and a half levels of accounting [with the optional P200N printer], or three levels of accounting [with [Alpha Suite Basic™](#) and [Alpha Suite Lite™](#) software, using segmented user codes].

The Alpha supports individual prices for up to four different image types, depending on copier/printer make and model. The Alpha stores 10 different quotas for limiting imaging activity by user or project.

The Alpha can be configured for different keypad operation modes. Specifically, it can be set up for open accounting third party (client/matter) billing, a mode favored by the legal profession.

The Alpha has four speed buttons and four navigational arrows for quick and easy administrative programming. When used with the Alpha Suite Basic software, four sets of prices are supported across a group of copiers.

Also, with Alpha Suite Basic software, usage statistics can be downloaded, and codes uploaded, manually or serially, using a laptop or similar device.

The Alpha comes standard with its own 24 VDC power supply, but it can run off power from the copier/printer in many cases. It is shipped with a copier/printer specific sprig at no extra charge.

The Alpha has a small footprint, measuring only 4" x 2.5" x 7", and weighs a mere 1 lb.

#### Warranty

The Copicode Alpha is warrantied against manufacturing defects for a period of one year from date of shipment, to be determined by the serial number on its back and an internal serial number.

Advanced Technologies (Tekvend) agrees to repair or replace an Alpha shown to have manufacturing defects within its warranty period. Advanced Technologies (TekVend) agrees to pay ground return shipping and insurance on these warranty repairs or replacements.

Advanced Technologies (Tekvend) cannot be responsible for any damage that occurs to product returned to it due to inadequate return shipment procedures. The shipper is responsible for ensuring that return shipment packaging is adequate and that the return shipment is adequately insured.

Advanced Technologies (Tekvend) does not warranty its product for damage caused by abusive use, vandalism, improper installation, and improper field repair. Installer is expected to use the original copier specific harness (sprig) supplied by Advanced Technologies (Tekvend), and install the Copicode Alpha on the originally specified copier, unless otherwise authorized.
