### M200 Series Copier Controller

#### Product Overview

The [M200 Series Copier Controller](#) accepts one coin to vend one copy. That coin can be a nickel (M205), dime (M210) or quarter (M225).

The M200 Series Controller's housing - similar to a tall and narrow "breadbox" - allows for easy mounting on any of its three non-faceplate sides.

The M200 Series Controller runs safely off the low signal voltages of its attached copier, and comes standard with both a copier specific sprig and bypass keyswitch.

#### Technical Specifications

- Accommodates 5 VDC to 30 VDC signals from copier
- [Rugged tubular lock](#)
- \$70 cashbox capacity
- [Dimensions: 16.5" x 5.75" x 6"](#)
- Weight: 12 lb

#### Warranty

The M200 is warrantied against manufacturing defects for a period of one year from date of shipment, to be determined by the serial number on the inside of its housing.

To honor legitimate warranty claims, Advanced Technologies (Tekvend) agrees to repair or replace at its discretion any M200 Series Controller found defective for manufacturing defects within the warranty period specified. Advanced Technologies (Tekvend) additionally agrees to pay ground return shipping and insurance on these warranty repairs or replacements.

Advanced Technologies (Tekvend) cannot be responsible for any damage that occurs to product returned to it due to inadequate return shipment procedures. The shipper is responsible for ensuring that return shipment packaging is adequate and that the return shipment is adequately insured.

Advanced Technologies (Tekvend) does not warranty its product for damage caused by abusive use, vandalism, improper installation, and improper field repair. Installer is expected to use the original copier specific harness (sprig) supplied by Advanced Technologies (Tekvend), and install the M200 on the originally specified copier, unless otherwise authorized.
